Dear Bill,

It is not often that I get the opportunity to write such a warm thank You letter. I spent the last 7 years with a vision for a new facility That would be worthy of the many clients we see. You, Al and Mike were able to take that (sometimes daunting) task and make it real. What a great building you gave us, and what a terrific footprint we now have in the community.

And, to your generosity. It is again uncommon to receive not only a commitment to excellence in your work but in your philanthropy as well. We will indeed use the \$ 30,237.49 to better serve our clients and the community. Thank you for all those future clients who will be the recipient of your kindness.

I will keep you apprised of our September open house. Please feel free to use me as a reference, and I hope our paths will frequently cross. All the best, Bill, and thanks again for taking such good care of us.

Sincerely,

Sue Idtensohn
President/CEO
