

*Taylor*  
CORPORATION

May 9, 2002

To Whom it May Concern:

We are currently involved in the renovation of our 80,000 square foot building in the City of Lake Mary. Harkins Development Corporation was hired to handle this design/build project for us. We hired them on a smaller scale project three years ago and were happy with their performance so chose to again recruit their services. They have worked well with the professional engineers, architects, and other outside services contracted by Taylor Corporation.

With this current renovation project, Taylor Corporation placed Harkins Development Corporation in a situation that required them to complete \$1,000,000 of improvements within a time period of 60 calendar days. They not only have accomplished this, but have delivered a quality project as well.

Harkins Development Corporation has a qualified office and field staff, provide excellent communication with the client and are very professional to work with. Because we are located in Minnesota, it is very important that we work with a company that we can trust and who will look out for our best interests. We have found this with Harkins Development Corporation. We would recommend Harkins services to anyone.

Sincerely,

TAYLOR CORPORATION

Michael J. Schmitt, P.E.
